Updating the operating system for your Chromebook can resolve many common issues and also ensures the Chromebook has the latest features.

**NOTE:** If a device is more than one version behind, it will need to be restarted more than once to complete the update.

1. Open **Chrome browser**.

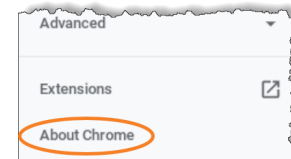

2. In upper-right corner of window, click the **3 dots** OR if available, click **Update** button.

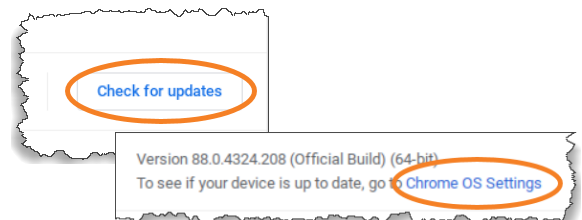

3. Click **Settings**.

4. On lower-right, click **About Chrome**.

5. Click **Check for Updates** OR click **Chrome OS Settings**.

6. Update will download. When finished downloading, click **Restart**.

- Repeat steps above until the **Check for Updates** button disappears.

If this does not resolve the issue, contact the WCPSS Help Desk at 919-664-5700.
