

# Pediatric Primary Care in Wake County

Our board-certified pediatricians see newborns, children, teens, and adolescents for:

- Well-child check-ups, including annual, school, and sports physicals
- Immunizations, including infant and school-age vaccinations, annual flu shots, and COVID-19 vaccines
- Screening tests for hearing, vision, and lead poisoning
- Screening for developmental milestones and autism
- Ongoing care for chronic conditions such as allergies, asthma, obesity, and developmental disabilities
- Behavioral health services, including evaluation for and management of depression, anxiety, and ADHD
- Common conditions like sore throat, cough, cold, flu, or rashes and skin conditions

Our clinics include quiet spaces and an exam room for larger families or children with complex health needs.
