

Early Release Student Parking!

What is it?

Students with early release during the school year will all be assigned parking in the same lot together, on the side closer to the stadium.

This will allow for a more streamlined and free flowing dismissal and more efficient use of our limited parking lot space.

Arrival in the morning will still work the same, only dismissal will change.

How it works:

1. Early Release students leave campus no later than 12:54 (4th period E.R.)
2. Buses line up for dismissal in the parking lot.
3. At 2:18 bell, students with parking in the rest of the lot will be allowed to safely leave the parking lot once they get to their cars—before buses leave.
