

Dear Parents/Guardians,

In order for a child to be considered for Early Kindergarten Entry (EKE) a child must be 4 years old by April 16th of the current year. Wake County Public School System considers EKE to be equivalent to Whole Grade Advancement or the skipping of a grade. A candidate for EKE must show advanced development in intellectual, academic, social and emotional maturity in addition to an interest in learning.

A child must score at the 98th percentile or higher on a standardized intelligence battery administered by a licensed psychologist or licensed psychological associate in order to be considered for the EKE program. The child must also perform at or above the 98th percentile on a standardized reading or math achievement battery. If the standardized scores do not rank at the 98th percentile or higher on the intelligence and either the reading or math achievement battery, the EKE packet will not be forwarded to the child's base school for review and the child will not be considered a candidate for Early Kindergarten Entry.

WCPSS does not provide recommendations for psychologists or psychological associates who conduct intelligence and achievement evaluations. Your child's pediatrician or health insurance representative may be able to recommend providers. Please ask the psychologist or psychological associate who will be working with your child to refer to the EKE Required Documents (included in this packet) to ensure that the necessary information is collected. Parents are responsible for the cost of the evaluations.*

All of the EKE required documents must be received within the designated dates noted on the EKE Timeline. The EKE Timeline is included in this packet. Use the online WCPSS school locator tool or call (919) 431-7400 to determine your child's [base school](#).

Please be aware that the required documents will be reviewed no earlier than 5 business days prior to the first day of school for students. Therefore, it is probable that an EKE candidate will not be starting school on the first day of the school year.

Sincerely,

La' Kesha Spruill-Roberts

La' Kesha Spruill-Roberts

Director of Intervention and Advanced Learning Services

*A limited number of scholarships may be available for those who demonstrate financial need.

Early Kindergarten Entry Timeline

If your child will be 4 years old by April 16th of the current year, and you would like to apply for **Early Kindergarten Entry (EKE)**, please refer to the following information.

- 1) After **April 16th** of the current year, aptitude and achievement evaluations may be completed by a licensed psychologist or psychological associate at the parent's expense.*
- 2) Parents or legal guardians must complete the **Early Kindergarten Entry application packet**: www.wcpss.net,

Once completed, parents or legal guardians must mail or deliver the required documents to the Office of Intervention and Advanced Learning Services (IALS), Crossroads I, 5625 Dillard Drive, Cary, NC 27518.

- All required documents must be received before the child's application will be considered.
- The dates to apply are based on the child's base school assignment. Application packets received before or after the dates listed will be returned to the sender or held until the acceptance dates. Refer to the table below and allow time for delivery if mailing packets so that the information is received within the accepted time frames.

| Calendar for Child's Base School Assignment | Dates that Early Kindergarten Entry Packets Accepted |
|----------------------------------------------------------------------------------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------|
| Traditional Calendar Schools & Fox Road Elementary | August 16 - October 1 |
| Year-Round Calendar Schools | Tracks 1 & 2 July 1 - August 19 Track 3 July 1 - September 10 Track 4 July 23 - September 13 |
| Modified Calendar Schools (Carver, Partnership) | July 19 - Sept. 3 |
| Year-Round, Track 4 Only (Barwell, Highcroft, Hodge Road, Lake Myra, Lockhart, Rand Road, Timber Drive, Vance, Walnut Creek & Wilburn) | July 26 - September 10 |

Please note, if a school has reached a cap in enrollment, a child may be assigned to a different school and the dates above may need to be adjusted.

- 3) After receiving the completed application, within 5 business days of the accepted time frame:
 - IALS Office will review the completed packet and standardized test results.
 - If the child's performance on the standardized aptitude and achievement measures meets the EKE requirements, then a representative from the IALS Office will deliver all appropriate documents to the child's base school for additional consideration.
 - If the child's performance on the standardized aptitude and achievement measures does not meet the EKE requirements, then a representative from the IALS Office will inform the parents that the child is not eligible for the EKE program.
- 4) After receiving the completed application, within 15 business days from the accepted time frame: the principal (or designee) with the School-Based Committee for Gifted Education (SBCGE) will determine whether the child will be conditionally enrolled in the Early Kindergarten Entry program.

5) EKE Results of Nomination:

- a) If the child did not earn an aptitude score that ranked at the 98th percentile or higher and either a reading or math achievement score that also ranked at the 98th percentile or higher, then the Office of Intervention and Advanced Learning Services will send a notification to parents/legal guardians that that child is not eligible.
- b) If the child earned the required standardized scores, the Office of Intervention and Advanced Learning Services will send the EKE packet to the base school.

6) EKE Results of Referral:

- a) The principal and other SBCGE members will review all available information and will compare the child's performance samples to that of kindergarten and first grade standards. If the team decides to move forward with the student's application, the principal or designee will also schedule and conduct separate parent and student interviews.
- b) If the SBCGE determines from the review of the information within the packet and the interviews that the student does not demonstrate the motivation, interest, maturity, or academic skills needed, the principal will notify the parents that the child is not eligible for Early Kindergarten Entry.

7) EKE Results of Student Observation:

- a) If following the interviews the SBCGE determines that the student continues to be a candidate for Early Kindergarten Entry, then the principal will invite the child to attend kindergarten for a day. During this day, the child will be observed for social and emotional adjustment and will participate in academic assessments to further gauge his or her readiness for kindergarten.
 - i) If the SBCGE determines that the observations and assessment data **do not provide evidence** that the student is a good candidate for Early Kindergarten Entry, then the principal will notify the parents that the child is not eligible for Early Kindergarten Entry.
 - ii) If the SBCGE determines that the observations and assessment data **do provide evidence** that the student is a good candidate for Early Kindergarten Entry, then the principal will notify the parents that the child is eligible for conditional kindergarten enrollment for up to 90 calendar days.

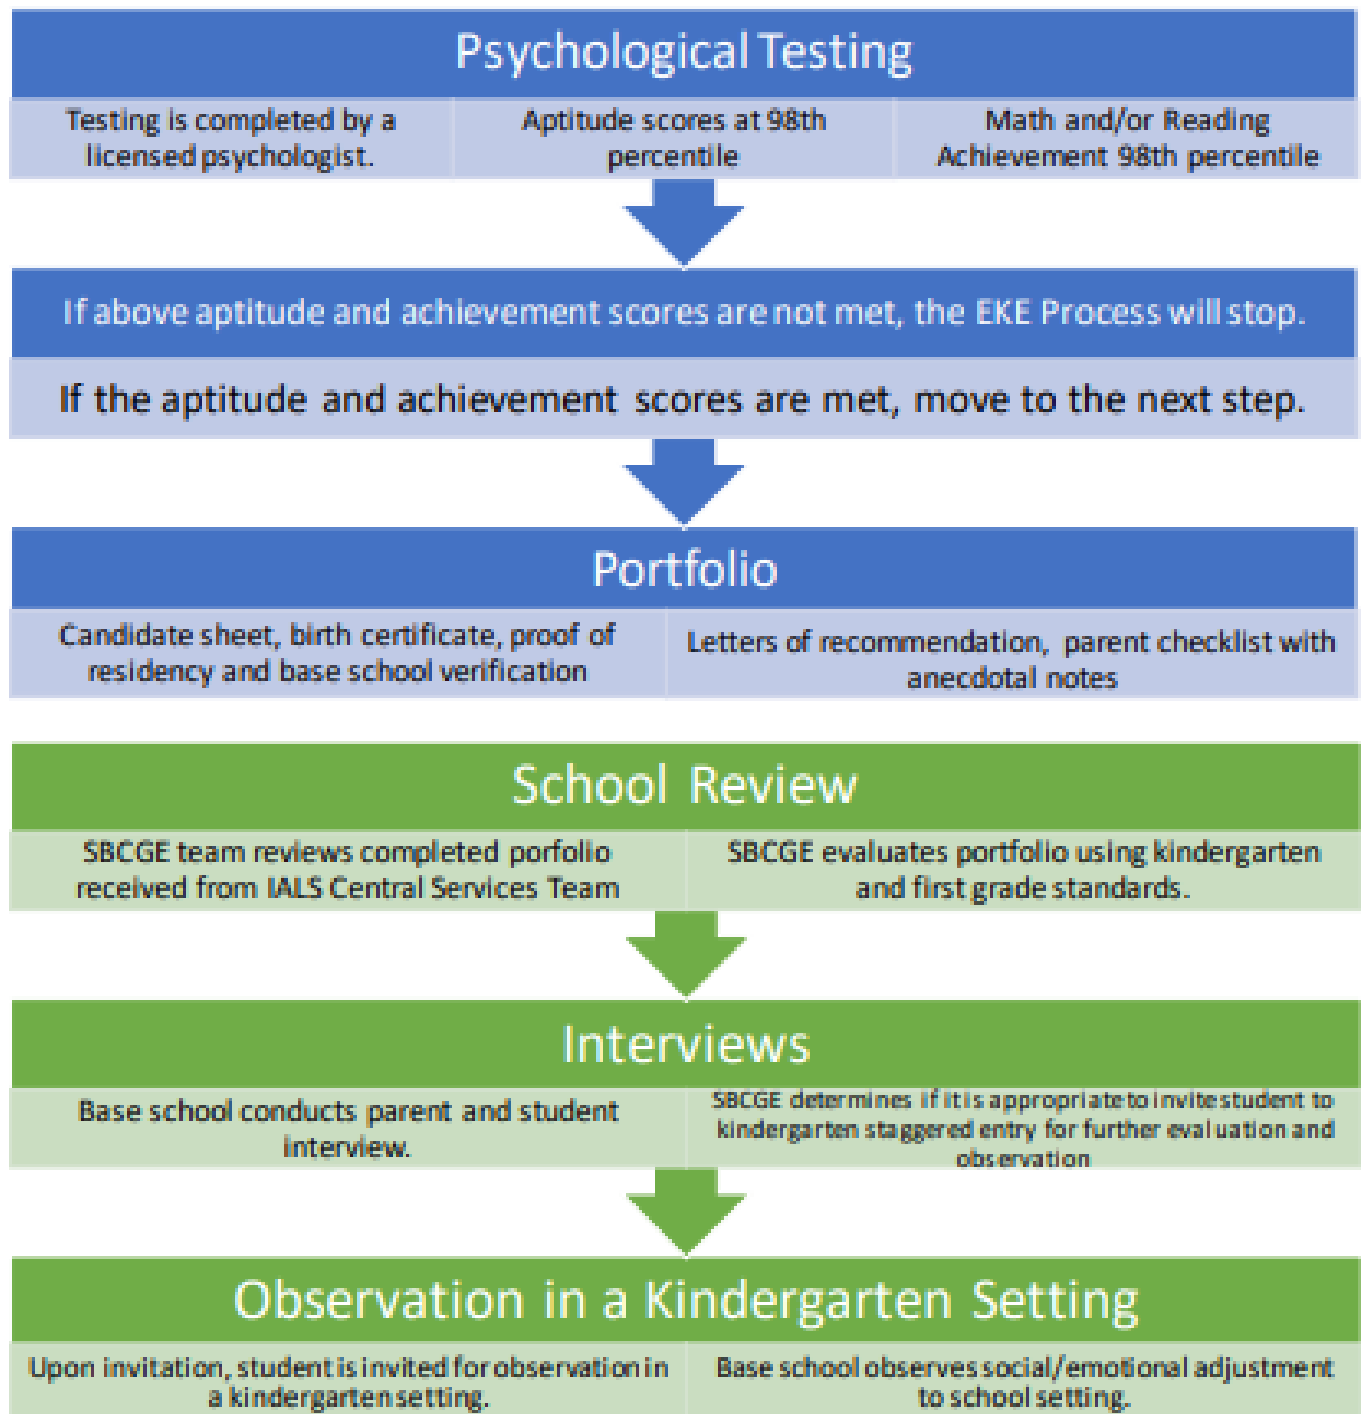

8) EKE Request for Intervention Meeting (if needed):

If at or before the 80th day of conditional enrollment the child does not appear to be well-adjusted to the school setting, the principal shall invite and meet with the parent or legal guardian to assist in the development of an intervention plan for the child. If those strategies are not successful, the principal will provide the parent at least 10 days' notice before exiting the child from school.

9) EKE Acceptance of Enrollment or EKE Withdrawal from Conditional Enrollment:

- a) If within the conditional enrollment period the child appears well-adjusted to the school setting, the principal will notify the parents that the child will be permanently enrolled as a kindergarten student.
 - i) At this time the parent must complete enrollment.
 - ii) If sibling does not attend base school or parent is looking for assignment elsewhere parents may apply for a transfer after the 90 day conditional enrollment.
 - iii) Transfers cannot be guaranteed.
- b) If the child is permanently enrolled in kindergarten, the SBCGE will determine if the child is eligible for Early Identification in the Academically and/or Intellectually Gifted (AIG) program.

Early Kindergarten Entry Flowchart

Early Kindergarten Entry Specifics

Age Readiness

North Carolina state law says children must turn five on or before August 31 of the year they will begin kindergarten. This means if a child will begin kindergarten in 2019, they must be five on or before August 31, 2019. However, if a child will turn 4 years old by April 16th of this year, and the child appears intellectually, academically, socially, and emotionally ready for kindergarten, but does not meet the age requirements, parents can apply for Early Kindergarten Entry (EKE).

To qualify for Early Kindergarten Entry children must:

- Have reached the age of four on or before April 16.
- Be tested by a licensed psychologist or psychological associate (at personal cost) after April 16.
- Score at the 98th percentile or higher on the aptitude tests AND at the 98th percentile or higher on either the reading or mathematics achievement test.
- Be presented for enrollment no later than the first 30 calendar days of school.
- Be interviewed by the principal or a designee of the school and observed in the school setting. The parent(s) will also be interviewed.
- If recommended for conditional enrollment in kindergarten, the child must successfully complete the trial period.

Academic Readiness

During kindergarten, students are typically assessed on their Reading Foundational Skills and Math Standard Skills. The following are a few of the skills that will be assessed during the school year:

- letter knowledge
- concepts about print
- reading level
- basic math skills (such as counting, shapes, colors)
- language skills

[State Policy on Early Kindergarten Entry Authority G.S. 115C-364](#)

[WCPSS Policy on Early Kindergarten Entry Code 4100](#)

Social and Emotional Readiness

Social and emotional readiness are an important part of a child's transition into kindergarten. It is important children are socially and emotionally healthy as they begin school. Here are some questions you may want to ask yourself about your child's social readiness:

- Does my child get along well with others?
- Does my child work well individually and within small and large groups?
- Has my child had positive relationships and experiences being in a group away from home and familiar adults?
- Does my child show appropriate social and school behaviors?
- Is my child able to separate from me easily in new situations?
- Does my child follow rules?
- Does my child cooperate and share with other children?
- Does my child interact with other children appropriately?
- Does my child enjoy being around other children?

Children have a high rate of success in kindergarten if they can interact positively with a group of peers. Social skills such as sharing, taking turns, compromising, approaching unfamiliar children, and problem solving will facilitate an easy transition and successful year.

Personal Readiness

Personal Readiness is your child's ability to independently take care of his/her basic personal needs. Here are some examples of personal skills:

- Bathroom skills
- Dresses/undresses self
- Follows 1 or 2 step directions
- Able to feed self
- Communicates wants/needs
- Able to sit still for 10 minutes
- Avoids obvious dangers
- Keeps up with belongings
- Recognizes and tries to solve simple problems
- Able to get on and off the school bus

Parents can access a WCPSS Early Kindergarten Entry packet online or pick up packet at 5625 Dillard Drive Cary, NC 27518. Packets will be available in early April, but cannot be submitted until closer to the first day of school. (See EKE Timeline) Please be aware that the Early Kindergarten Entry interviews, observations, and conditional enrollment process occur at the child's base school.

Early Kindergarten Entry Required Documents

Psychological Testing

Student Aptitude Assessment

- ❑ The following tests are the **ONLY** aptitude tests that Wake County Public School System will accept for Early Kindergarten Entry consideration: Stanford-Binet, Wechsler Preschool and Primary Scale of Intelligence, Wechsler Nonverbal Scale of Ability, or Differential Abilities Scale.
 - The most recent version of the test must be administered.
 - The tests must be administered by a licensed psychologist, licensed psychological associate, or a graduate student supervised by a licensed psychologist from a graduate training program.
 - Total test score must rank at or above the **98th percentile**.
 - Prorated scores are not accepted.

Student Achievement Assessment for Reading and Mathematics

- ❑ The Woodcock-Johnson IV Tests of Achievement or a comparable, individually administered test will be accepted by Wake County Public School System for Early Kindergarten Entry.
 - The most recent version of the test must be administered.
 - The tests must be administered by a licensed psychologist, licensed psychological associate, or a graduate student supervised by a licensed psychologist from a graduate training program.
 - Reading cluster scores must include measures of word identification and reading comprehension skills (e.g. WJIV Letter-Word Identification and Passage Comprehension subtests to form Reading cluster).
 - Math cluster scores must include measures of calculation and math problem solving skills (e.g. WJ IV Applied Problems and Calculation subtest to form Mathematics cluster).
 - Either the reading or math cluster score must rank at or above the **98th percentile**.

Assessments must be completed after April 16 of the current year.

Early Kindergarten Entry Required Documents

Student Information

Candidate Information Sheet

- Name, address, contact numbers.

Base School Verification

- Use website: <http://www.wcpss.net/preview>

Birth Certificate

- Provide a certified copy of the candidate's birth certificate.

Student Performance Portfolio

- A student performance portfolio should include student work samples that demonstrate mastery of kindergarten standards and progression towards first grade standards in any of the following areas: Reading Foundational Skills and Mathematics Foundational Skills.

Parent Documents

Proof of Address

Provide proof of your Wake County address (current water, gas, or electric bill in parent's or legal custodian's name that is no more than 30 days old, newly signed lease that is no more than 60 days old, a closing disclosure/settlement statement, or an offer to purchase agreement with a closing date within 45 days of enrollment). Any other circumstances must be reviewed through the Office of Student Assignment.

Two letters of recommendation

These letters may be from a preschool teacher, childcare worker, pediatrician, or other professionals who can provide specific documentation of physical and social maturity.

Parent Consent for Evaluation and Data Collection

Parent Observation Checklist: Demonstrated Gifted Learning Behavior

Complete including any anecdotal notes to support any checks made in the "Often Observed" column. Submit anecdotal notes on an attached sheet labeled according to Learning/Behaviors Observations.

Picture ID

Parents must provide a copy of identification that includes their picture.

Candidate Information Sheet

Parent Consent for Evaluation and Data Collection

Date: _____

Child's Name: _____

Parent's Name: _____

Parent's Address: _____

Dear Parents:

You are requesting for your child to be considered for Early Kindergarten Entry (EKE). The EKE process requires standardized test scores in both aptitude and achievement. You are submitting those required scores for review. Additionally, the EKE process involves observations, interviews and data collection. This data will be used to determine your child's eligibility for early kindergarten entry.

Decisions resulting from the review of the standardized test scores, interviews and/or observations will be sent to you as each phase of the process is completed.

EKE Information: www.wcpss.net

Consent for Evaluation

Please indicate whether or not you give consent below. Then, sign and return this form to the Intervention and Advanced Learning Services Office with your child's Early Kindergarten Entry packet. Keep copies of all information that you submit.

_____ Yes, I give my permission for my child's standardized test scores to be used in considering EKE eligibility. I also give my permission for my child to participate in the required interviews, observations, and/or conditional enrollment in kindergarten to determine eligibility for EKE. This permission remains in effect as long as my child is part of the Early Kindergarten Entry process.

_____ No, I do not give my permission for my child's standardized test scores to be used in considering EKE eligibility or for my child to participate in the required interviews, observations, and/or conditional enrollment in kindergarten to determine eligibility for EKE. In denying permission, I am aware that Early Kindergarten Entry will not be considered for my child.

Parent Signature

Parent Observation Checklist: Demonstrated Gifted Learning Behavior

Child's Name: _____

Parent's Name: _____

Date: _____

Please check the description that most accurately reflects your child's performance and behavior. Please check only one box in each row. You must present anecdotal notes or other evidence to support any checks in the "Often Observed" columns.

| Learning Behaviors | Characteristics | Not Observed | Sometimes Observed | Often Observed |
|-------------------------------------------------------------------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------|--------------|--------------------|----------------|
| 1. Reasoning / Logical Thinking | My child independently reasons things out for himself/ herself. | | | |
| | My child easily draws conclusions from presented information. | | | |
| | My child is able to go from the concrete to the abstract. | | | |
| If "Often Observed" is checked for any of items, please explain or give example of how your child demonstrates this behavior. | | | | |
| 2. Problem Solving | My child offers unique and clever responses. | | | |
| | My child avoids typical ways of doing things choosing instead to adapt, improve, and/or modify a problem or topic. | | | |
| If "Often Observed" is checked for any of items, please explain or give example of how your child demonstrates this behavior. | | | | |
| 3. Inquiry/ Intellectual Curiosity | My child constantly asks questions about anything and everything. | | | |
| | My child is curious about the "how and why" of his/her surroundings. | | | |
| | My child is willing to challenge accepted ideas. | | | |
| If "Often Observed" is checked for any of items, please explain or give example of how your child demonstrates this behavior. | | | | |
| Learning Behaviors | Characteristics | Not Observed | Sometimes Observed | Often Observed |
| 4. Insight | My child is keenly observant; he/she usually "sees more or gets more" out of a story, film, experiment, problem, etc. than others. | | | |

| | | | | |
|-------------------------------------------------------------------------------------------------------------------------------|--------------------------------------------------------------------------------------|---------------------|---------------------------|-----------------------|
| | My child shows emotional sensitivity to world issues. | | | |
| | My child is concerned with right and wrong and good and bad. | | | |
| If "Often Observed" is checked for any of items, please explain or give example of how your child demonstrates this behavior. | | | | |
| 5. Communication Skills | My child uses advanced vocabulary for his/her age in written and oral communication. | | | |
| | My child demonstrates expressive and effective use of words, numbers, and symbols. | | | |
| If "Often Observed" is checked for any of items, please explain or give example of how your child demonstrates this behavior. | | | | |
| 6. Creativity/ Imagination | My child generates a large number of ideas or solutions and elaborates upon them. | | | |
| | My child is an innovative risk taker who finds imaginative ways of solving problems. | | | |
| | My child enjoys "playing with ideas." | | | |
| If "Often Observed" is checked for any of items, please explain or give example of how your child demonstrates this behavior. | | | | |
| Learning Behaviors | Characteristics | Not Observed | Sometimes Observed | Often Observed |
| 7. Self-Awareness | My child displays a keen sense of humor. | | | |
| | My child is individualistic and does not fear being different. | | | |
| | My child strives towards perfection and is self-critical. | | | |
| | My child is adamant about his/her beliefs. | | | |
| | My child adapts readily to new situations. | | | |
| If "Often Observed" is checked for any of items, please explain or give example of how your child demonstrates this behavior. | | | | |

| | | | | |
|-------------------------------------------------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------|---------------------|---------------------------|-----------------------|
| 8. Memory | My child knows numerous facts about many subjects. | | | |
| | My child demonstrates quick mastery and recall of factual information. | | | |
| If "Often Observed" is checked for any of items, please explain or give example of how your child demonstrates this behavior. | | | | |
| 9. Student Academic Performance | My child demonstrates well-developed organizational skills. | | | |
| | Routine tasks easily bore my child. | | | |
| | My child sets high personal goals and strives for academic excellence. | | | |
| If "Often Observed" checked for any of items, please explain or give example of how your child demonstrates this behavior. | | | | |
| Learning Behaviors | Characteristics | Not Observed | Sometimes Observed | Often Observed |
| 10. Interest | My child reads a great deal and frequently selects books well beyond his/her age. | | | |
| | My child enjoys learning for its own sake. | | | |
| | My child displays an intense interest and skill in an area. | | | |
| If "Often Observed" is checked for any of items, please explain or give example of how your child demonstrates this behavior. | | | | |
| 11. Motivation to Learn | My child needs little external motivation and enjoys the challenge of new and different topics. | | | |
| | My child is a "self-starter" who works well alone, needs few directions and little supervision. | | | |
| If "Often Observed" is for any of items, please explain or give example of how your child demonstrates this behavior. | | | | |

Early Kindergarten Entry: NC Math Standards for Kindergarten

| Counting and Cardinality | |
|----------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Know number names and the counting sequence. | Know number names and recognize patterns in the counting sequence by: <ul style="list-style-type: none"> <input type="checkbox"/> Counting to 100 by ones <input type="checkbox"/> Counting to 100 by tens |
| | Count forward beginning from a given number within the known sequence, instead of having to begin at 1. |
| | Write numbers from 0 to 20. Represent a number of objects with a written numeral 0-20, with 0 representing a count of no objects |
| Count to tell the number of objects. | Understand the relationship between numbers and quantities. <ul style="list-style-type: none"> <input type="checkbox"/> When counting objects, say the number names in the standard order, pairing each object with one and only one number name and each number name with one and only one object. <input type="checkbox"/> Recognize that the last number named tells the number of objects counted regardless of their arrangement. <input type="checkbox"/> State the number of objects in a group, of up to 5 objects, without counting the objects. |
| | Count to answer "How many?" in the following situations: <ul style="list-style-type: none"> <input type="checkbox"/> Given a number from 1–20, count out that many objects. <input type="checkbox"/> Given up to 20 objects, name the next successive number when an object is added, recognizing the quantity is one more/greater. <input type="checkbox"/> Given 20 objects arranged in a line, a rectangular array, and a circle, identify how many. <input type="checkbox"/> Given 10 objects in a scattered arrangement, identify how many. |

Early Kindergarten Entry: NC Math Standards for Kindergarten

| Counting and Cardinality | |
|--------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Compare numbers. | Identify whether the number of objects, within 10, in one group is greater than, less than, or equal to the number of objects in another group, by using matching and counting strategies. |
| | Compare two numbers, within 10, presented as written numerals. |
| Operations and Algebraic Thinking | |
| Understand addition and subtraction. | Represent addition and subtraction, within 10: <ul style="list-style-type: none"> <input type="checkbox"/> Use a variety of representations such as objects, fingers, mental images, drawings, sounds, acting out situations, verbal explanations, or expressions. <input type="checkbox"/> Demonstrate understanding of addition and subtraction by making connections among representations. |
| | Solve addition and subtraction word problems, within 10, using objects or drawings to represent the problem, when solving: <ul style="list-style-type: none"> <input type="checkbox"/> Add to/Take From-Result Unknown <input type="checkbox"/> Put Together/ Take Apart (Total Unknown and Two Addends Unknown) |
| | Decompose numbers less than or equal to 10 into pairs in more than one way using objects or drawings, and record each decomposition by a drawing or expression. |
| | For any number from 0 to 10, find the number that makes 10 when added to the given number using objects or drawings, and record the answer with a drawing or expression |
| | Recognize and combine groups with totals up to 5. |
| | Demonstrate fluency with addition and subtraction within 5. |

Early Kindergarten Entry: NC Math Standards for Kindergarten

| Number and Operations in Base Ten | |
|-------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Build foundation for place value. | Compose and decompose numbers from 11 to 19 into ten ones and some further ones by: <ul style="list-style-type: none"> <input type="checkbox"/> Using objects or drawings. <input type="checkbox"/> Recording each composition or decomposition by a drawing or expression. <input type="checkbox"/> Understanding that these numbers are composed of ten ones and one, two, three, four, five, six, seven, eight, or nine ones |
| Measurement and Data | |
| Describe and compare measurable attributes. | Describe measurable attributes of objects; and describe several different measurable attributes of a single object. |
| | Directly compare two objects with a measurable attribute in common, to see which object has “more of”/“less of” the attribute, and describe the difference. |
| Classify objects and count the number of objects in each category | Classify objects into given categories; count the numbers of objects in each category and sort the categories by count. |
| Geometry | |
| Identify and describe shapes. | Describe objects in the environment using names of shapes, and describe the relative positions of objects using positional terms. |
| | Correctly name squares, circles, triangles, rectangles, hexagons, cubes, cones, cylinders, and spheres regardless of their orientations or overall size. |
| | Identify squares, circles, triangles, rectangles, hexagons, cubes, cones, cylinders, and spheres as two-dimensional or three dimensional. |

Geometry

Analyze, compare, create, and compose shapes.

Analyze and compare two- and three-dimensional shapes, in different sizes and orientations, using informal language to describe their similarities, differences, attributes and other properties.

Model shapes in the world by:

- Building and drawing triangles, rectangles, squares, hexagons, circles.
- Building cubes, cones, spheres, and cylinders.

Compose larger shapes from simple shapes.

Early Kindergarten Entry: NC English Language Arts Standards for Kindergarten

Reading Standards for Literature

| Key Ideas and Evidence | |
|----------------------------------------------------------------------------------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| With prompting and support, ask and answer about key details in a text . | Students ask questions about the important details in the text. They also correctly answer questions about those important details in the text. |
| With prompting and support, retell familiar stories, including key details . | Students tell what happened in a familiar story. They include important details such as who, what, when, where, why, or how. Teachers and/or peers provide support and prompting. |
| With prompting and support, identify characters, settings , and major events in a story. | Students name characters in a story, including both main and supporting characters. They also name specific places where the story happens. Students name the important events in the story. Teachers and/or peers provide support and prompting. |
| Craft and Structure | |
| With prompting and support, ask and answer questions about words in a text that suggest feelings or appeal to the senses. | Students ask questions about words in a text that suggest feelings (e.g. happy, mad, sad) or appeal to the senses (e.g. stinky smell, bright sight, loud sound, delicious taste, soft touch.) Students also answer questions about the selected words. The teacher and/or peers provide support and prompting. |
| Recognize common types of texts . | Students identify different types of text, including poems, stories, and informational books. |
| With prompting and support, define the role of the author and illustrator in telling the story. | Students describe the roles of the author and the illustrator. They explain how each contributes to the telling of the story. The teacher and/or peers provide support and prompting. |

Early Kindergarten Entry: NC English Language Arts Standards for Kindergarten

| Integration of Ideas and Analysis | |
|---------------------------------------------------------------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| With prompting and support, describe how the words and illustrations work together to tell a story. | Students explain how words and illustrations contribute to what is happening in a story. They explain the connection between the words and the illustrations, such as what moment in the story an illustration depicts. The teacher and/or peers provide support and prompting. |
| With prompting and support, compare and contrast the adventures and experiences of characters in familiar stories. | Students describe the similarities and differences between the adventures and experiences of characters in known stories. The teacher and/or peers provide support and prompting. |
| Range of Reading and Level of Complexity | |
| Actively engage in group reading activities with purpose and understanding | As a class or in small groups, students engage in activities such as asking questions, providing details, and decoding words when completing reading activities such as a choral reading or listening to a text read aloud. |

Reading Standards for Informational Text

| Key Ideas and Evidence | |
|---------------------------------------------------------------------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| With prompting and support, ask and answer questions about key details in a text. | Students ask questions about the important details in the text. They also correctly answer questions about those important details in the text. Teachers and/or peers provide support and prompting. |
| With prompting and support, identify the main topic and retell key details of a text. | Students state the main topic of an informational text. Students also state important details from the text. Teachers and/or peers provide support and prompting. |
| With prompting and support, describe the connection between two individuals, events, ideas, or pieces of information in a text. | Students explain how two individuals, events, ideas, or pieces of information from a text are related. Students access the book and pictures as support. Teachers and/or peers provide support and prompting. |

Early Kindergarten Entry: NC English Language Arts Standards for Kindergarten

| Craft and Structure | |
|-----------------------------------------------------------------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| With prompting and support, ask and answer questions about words in a text. | Students ask questions about unfamiliar and familiar words in a text. Students also answer questions about those words. The teacher and/or peers provide support and prompting. |
| Identify the front cover, back cover, and title page of a book | Students point out the front cover, back cover, and title page of a book |
| With prompting and support, define the role of the author and illustrator in presenting the ideas or information in a text. | Students describe the roles of the author and the illustrator in providing information. The teacher and/or peers provide support and prompting. |
| Integration of Ideas and Analysis | |
| With prompting and support, describe how the words and illustrations work together to provide information. | Students explain how the words and illustrations within a text provide insight into what is happening in the text. They explain the connection between the words and the illustrations, such as what person, place, thing, or idea in the text an illustration depicts. The teacher and/or peers provide support and prompting. |
| With prompting and support, identify basic similarities in and differences between two texts on the same topic. | Students recognize how two texts with the same topic are the same and different. This includes similarities and differences between illustrations, descriptions, or procedures. The teacher and/or peers provide support and prompting. |
| Range of Reading and Level of Complexity | |
| Actively engage in group reading activities with purpose and understanding. | As a class or in small groups, students engage in activities such as asking questions, providing details, and decoding words when completing reading activities such as a choral reading or listening to a text read aloud. |

Reading Standards for Foundational Skills

Print Concepts

| | |
|----------------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Demonstrate understanding of the organization and basic features of print. | Students understand the basic concepts of print. <ul style="list-style-type: none"> ● Students move from left to right across the page, from the top to the bottom of a page, and from one page to the next. ● Students know that words are made of letters and that spoken words can be written to become a piece of writing. ● Students know that letters together in a certain sequence make words and these words are written with spaces between them. ● Students name all letters in uppercase and lowercase forms. |
|----------------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|

Handwriting

| | |
|------------------------------------|----------------------------------------------------------------------------------------------------|
| Print upper-and lowercase letters. | <ul style="list-style-type: none"> ● Students write uppercase and lowercase letters |
|------------------------------------|----------------------------------------------------------------------------------------------------|

Phonological Awareness

| | |
|-----------------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Demonstrate understanding of spoken words, syllables, and sounds (phonemes) | <ul style="list-style-type: none"> ● Students demonstrate phonological awareness at the word level, syllable level, and sound level. ● Students identify and create rhyming words. ● Students divide words into syllables and count those syllables. They say the sounds in the syllables and blend them to create words. ● In single-syllable words, students blend and segment the onset and rime (The onset in “mat” is /m/ and the rime is /at/). ● Students segment CVC (consonant-vowel-consonant) words (e.g. dot) so that each sound is heard in isolation (e.g. /d//o//t/ is “dot” note: except for CVC endings /l/, /r/, and /x/). ● Students manipulate phonemes (sounds) in single syllable words to make new words (e.g. substitute /c/ in “mat” to make “cat” or add /l/ to “fat” to make “flat”). |
|-----------------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|

| Phonics and Word Recognition | |
|----------------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <p>Know and apply grade-level phonics and word analysis skills in decoding words.</p> | <ul style="list-style-type: none"> ● Students read words using grade-level appropriate strategies. ● Students produce all (or most) of the primary sounds for consonants. ● Students know the long and short vowel sounds and their common spellings. ● Students read frequently seen words by sight (e.g. the, of, to, you, she, my, is, are, do, does). ● Students identify the sound that is different in two similarly spelled words (e.g. went and want, students identify that /e/ in went is different than /a/ in want). |
| Fluency | |
| <p>Read emergent-reader texts with purpose and understanding.</p> | <ul style="list-style-type: none"> ● Students read and understand texts with predictable patterns, short sentences, sight words, CVC words, and strong picture support. |
