## Mad Science Spooky Assembly

STEM Fridays continue at Root with Mad Science on October 19! Mad Science sparks the imagination and curiosity of children through fun, hands-on science programs that instill a clear understanding of what science is really about and how it affects the world around them. The Mad Science Spooky Assembly will have our students gasping and laughing at the Mad Scientist's peculiar and chilling science experiments. They'll hear the tales of Count Eggbert and Countess Eggberta as they battle the wicked witch, and they'll watch as the wicked witch is melted right before their eyes! The children will experience creepy potions and a cemetery effect, and floating eyeballs will amaze everyone! Mad Science has spooky fun down to a science!
