

Wake Forest High School Advanced Placement Agreement
2021 - 2022

Advanced Placement courses are taught at a college level and require excellent organization skills, strong study habits, the ability to work independently, and a high level of interest and commitment. Students can expect to spend substantial time outside of class preparing assignments, reading and writing papers. In addition, Advanced Placement students may have summer assignments to prepare them for the challenge of their Advanced Placement course(s).

- **Commitment for the entire school year:** I am making the commitment to continue this course for the entire academic semester/year. I understand that a student may drop an advanced placement course up until Friday July 30, 2021 deadline. To drop the course, a student's parent/guardian must contact student services at (919) 554-8611 before the July 30th deadline.
- **Credit for the Advanced Placement exam:** I understand that taking the Advanced Placement exam is highly recommended by the Wake Forest faculty but does not guarantee college credit. Colleges and universities determine the minimum score for which they will award credit. I agree to pay the fee, approximately \$94, for each AP exam that I register to take in the event the NC Department of Public Instruction does not pay for the AP exams. The College Board does offer reduced exam fee for students who qualify for economic hardship.
- **Assignments and work habits:** I understand that Advanced Placement courses require a substantial commitment of time and energy. I will be diligent in completing my assignments thoughtfully and on time. I understand that I am responsible for being a constructive member of an AP class by participating in class discussions, working cooperatively in groups, respecting the views of others and talking responsibility for my decisions.
- **Special Requirements:** I agree to purchase the materials needed for each of my Advanced Placement courses.
- **Summer Assignments:** I agree to complete the summer assignments. Failure to complete the summer assignment does not provide grounds for removal from the course. Instead, the incomplete summer assignment will be used in the determination of the student's grade. It is the student's responsibility to obtain the information from the AP teacher prior to leaving for the summer. In most cases, summer assignments are also available on Wake Forest's website (<http://www.wcpss.net/wakeforesthhs>).
- **College Board Website:** Students are encouraged to visit the College Board website to view testing dates and important information regarding AP courses. www.collegeboard.com
