Notice one of your classes is Canvas 101. You may want to go through this course to introduce yourself to Canvas.

Click on one of your classes to enter it. Note your course must be "published" for it to become available to your users.

One of the nice benefits of Canvas is that students who are enrolled in your course are AUTOMATICALLY enrolled in your Canvas course! You no longer have to add students into classes. Hooray! You can add people manually, too, using the "People" link within your class.

Click around and get to know Canvas!
