Exploring Child Care/Nutrition and Wellness		Spanish Beginning Less Than 1 Year (Beginner Spanish)
Spanish Beginning Less Than 1 Year (Beginner Spanish)		Exploring Nutrition and Wellness/ Exploring Child Care

Parent Signature _____

Course Descriptions

Beginning Band (year-long course) - Emphasis is on the acquisition of basic musical skills as students learn to play a brass, woodwind, or percussion instrument. Band classes prepare several concert compositions that are performed for an audience. Students should anticipate some after-school practices and evening performances.

Beginning Strings (year-long course) - Beginning Strings is a course designed for students who are interested in playing a stringed instrument (violin, viola, cello, bass) for the first time. Previous experience is not needed for this class. This course will cover basic fundamentals of rhythm, note reading, posture, watching the conductor, bowing, pizzicato and learning how to perform as a group. Appropriate use of musical terms, dynamic markings, and the parts and care of stringed instruments are emphasized. Students prepare a number of concert selections that are performed for an audience. Students should anticipate some after-school practices and evening performances.

Visual Arts Exploratory - This course introduces students to the elements of art through a variety of media that may include drawing, painting, printmaking, mixed media, pottery, and weaving. Application of these elements to the students' own original artwork is the major emphasis while being introduced to art history and critical analysis of master work as well as their own.

Introduction to Dance- This course introduces creative movement, improvisation, and choreography through basic modern dance techniques.

Keyboarding and Basic Word Processing - Students develop a foundation for effective technology use by learning to type. The curriculum covers topics and skills including keyboard layout, ergonomic strategies, and keyboarding proficiency. Students also learn to use word processing software for basic document creation, design, editing, collaboration, and problem solving.

Exploring Technology – Students will gain an understanding of design and engineering. Students apply the design process in the inventions or innovation of new products, processes, or systems. Students will gain an understanding of Project Revive. Students will also develop skills in researching for information and communicating design information

Exploring Childcare -Students will explore communication skills, the ages, stages and milestones of infants, toddlers and school-age children, and how to effectively and safely care for infants, toddlers and school age children.

Spanish Beginning Less Than 1 Year - This course is the first in a multi-course sequence for high school Level I credit. In this course, students will learn the foundations of the language's vocabulary and structures in order to communicate in simple, memorized, sentences related to basic necessary skills in the target language. Classes are conducted primarily in the target language with a strong focus on comprehensible input at a level appropriate for novice learners. Activities focus on students' abilities to perform in the interpersonal, interpretive, and presentational modes of communication. Students who successfully complete this course will demonstrate Novice Low proficiency and should enroll in the Intermediate course to continue the HS Level I credit curriculum.

Exploring Nutrition & Wellness - Students gain an understanding of the impact of choices on wellness by examining the current USDA Food Guidelines and nutritious meal planning and preparation. Students learn basic kitchen skills, safety, and sanitation.
