WORKSHOP DESCRIPTION

Getting Ready for College/University: The parents will learn about college/university admission, financial aid, scholarship opportunities and when to start the planning process.

Parent Advocacy and Engagement in Your Child's Education: Parents learn key strategies to get involved in their children's education.

Learn How to Motivate Your Child to Thrive in School: Parents will learn strategies to inspire and motivate their children to improve in school.

Helping Your Child Reduce Test Stress: Parents will receive tips to help their child reduce stress on tests.

How to apply for Early College and Magnet Schools: Parents will learn what Early College and Magnet Schools are, when and how to apply to these types of schools.

How to Support Academic Growth Over School Breaks: Parents will learn educational strategies and gain information on what to do during breaks to avoid forgetting what you have already learned.

How to communicate with your child's teacher virtually: Parents will learn how to communicate with teachers through the Google meet and Zoom platforms.

Communicating with Your Teenager Effectively: The family will learn helpful strategies for recognizing and breaking down communication barriers with a teenager through the difficult teenage years.

How to identify that your child is suffering from cyber bullying: Parents will learn to identify if their child is virtually bullied and how to act before that situation.

Identify Bullying and Protect Your Child Against It: The family will learn to recognize the different types of bullying and recognized the signs of bullying, in order to prevent this from happening to their children.

Connecting your Child to College and Beyond through CFNC: CFNC.org offers help with career and college planning for all ages, from elementary school students to adults. Here you can research different careers, open a college savings account, plan college-leading courses, explore college options, find out how to pay for your education, and even complete online college applications.

Getting to Know the U.S.A. Educational System: Parents will learn how the education system is structured in the United States and the ways to become involved in the child's education.

Tips for Successful Parent-Teacher Conferences: Parent-teacher conferences are an important component of home-school communication, as is family involvement in your child's school. Years of research that achieve family participation in the education of their children leads to benefits

Building a Positive Relationship with Your Elementary School Child: Parents will learn to build a positive relationship with their children by setting limits, following through on consequences, and at the same time showing support and love.

Developing Good Homework Habits: Parents will learn to develop good homework habits and have a positive learning experience.

Developing Academic Vocabulary at Home Using Hands-on Activities (K-5th): Academic vocabulary is the language we use to learn new knowledge and skills. Parents will learn ways to encourage their children to develop an academic vocabulary, to do activities that they can practice at home.

Teaching Your Child How to Deal with Peer Pressure: Parents will learn how to help their child make good decisions, saying "yes" to positive peer pressures, which will help them become better people, and "no" to negative pressures.

Today's Math: "I didn't learn math like that!" (K-5th): Parents will have the opportunity to learn about math problems in grades K-5 and support the impact of math in higher grades. We will share resources and strategies to help you at home.

A Great Start for Your Kindergartener! Parents will learn 10 ways to help their kindergarten child succeed in school.

Navigating the Wake County Public School System (WCPSS): The parents will be provided with general WCPSS information, how the school system operates, and the available resources that WCPSS and Community offer.

Navigating the different Platforms that Teacher use Virtually: Parents learn from the different platforms that teachers use to teach virtually.

Preparing Your Child for the End of Grade (EOG) Tests (3rd-8th): The family will learn strategies that they can use to help their children feel calm when they take EOG tests.

Transitioning to Middle School: The family will learn about this stage of school and the steps to take to ensure that your child is ready for a smooth transition.

Transitioning to High School: The family will learn about graduation requirements, schedules, honors courses, advanced courses, understanding the GPA, extracurricular activities.
